ELECTRICAL SITE SUPERVISOR - AUTOMATION CHICAGO, IL # 21-443

JOB DESCRIPTION:

The Electrical Site Supervisor will be responsible for managing and overseeing the electrical/electronic installations and personnel related to the electrical/electronic installations of automated warehouse systems.

RESPONSIBILITIES

- Travel to our customers' sites to manage the electrical/electronic assembly and commissioning of automated warehouse systems.
- Direct and train workers to install, maintain, and troubleshoot electrical and electronic equipment related to automated warehouse
- Oversee the assembly of equipment, ensuring equipment is assembled according to the schematics/drawing. Assist in the assembly whenever needed.
- Scrub BOM's to resolve any inconsistencies or mistakes in advance of the scheduled installation.
- Ensure accuracy in parts required based on the proposal and related drawings.
- Participate in the troubleshooting and ensure the resolution of any electrical issues related to our equipment.
- Confirm the arrival of the materials necessary for the project installation.
- Communicate frequently with the dedicated Project Manager regarding any material shortages or delays.
- Test and validate equipment once assembled.
- Lead the on-site system start-up and training at our customers' facilities.

MINIMUM REQUIREMENTS:

- Bachelor's Degree in Electrical or Industrial Engineering or equivalent related experience.
- At least five (5) years of related experience with at least three (3) years in a leadership role.
- Ability to read, draw, and interpret electrical diagrams and Bills of Materials.
- Proficiency with MS Office.
- Basic knowledge of programmable controllers (Siemens, Allen Bradley, etc.)
- Availability to travel extensively in the US and Canada as needed based on scope of project, approximately 70%.
